'OUT OF THE SPINIFEX'

The first book in the 'Billy's Bing' series, soon to be released is a fast-moving adventure story and also an environmental geography of Australia as told by Billy.
On the big coloured map there are six faint circles
in the desert regions which illustrate the beginning of Billy's great adventure.

These worksheets may be copied for educational purposes only.

HELP!

There are many native animals in danger on the map.

- Can you find all these? Tick them when you do.
