

Comment on the proposed Standard for Fuel Parameters (Biodiesel)  
Commonwealth Position - August 2003

**Biodiesel Producers Ltd**

---

1. Using high grade petrol (above unleaded) also decreases fuel economy, but no label required!!
2. Referring to biodiesel/diesel ratios in the USA is ok, but at the price of diesel B100 is not going to be able to compete. Double the price and it would be very different.
