ABBBS BANDING PROJECT REPORT FORM

1. PROJECT NUMBER, TITLE, SUPERVISOR, DATA SUBMISSION

Project Number _____ **Title**_____

Project Supervisor _____ **ABBBS Authority No** _____

Have you submitted data for all animals banded in this project up to 30 June 2011? YES ❒ NO ❒

2. OBJECTIVES (Questions to be answered or aims achieved by the project.) *

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

3. PROJECT DESIGN (tick relevant category)

Target group: ❒ Single species ❒ Several species ❒ Community ❒ Other (specify)

_____

Capture method

❒ By hand ❒ Mist net
❒ Trap (specify type) ❒ Cannon net
❒ Other (specify):
_____

Marking/tracking methods

❒ Metal band ❒ Electronic tag/PIT
❒ Colour bands ❒ Radio/Satellite transmitter
❒ Wing tag ❒ Leg flag
❒ Other (specify): _____

Frequency of activity How often did you undertake field work for:

Banding/marking

❒ Daily ❒ Weekly
❒ Monthly ❒ Annually
❒ Other (specify): _____

Retraps/resightings

❒ Daily ❒ Weekly
❒ Monthly ❒ Annually
❒ Other (specify): _____

Controls for time and space effects (Provide details of controls or replicates if appropriate) *

❒ None: study of one area, not interested in possible changes over time
❒ Study of changes over time in one area
❒ Comparison between areas, not interested in possible changes over time
❒ Comparisons between areas and times
❒ Other (specify): _____

4. DATA COLLECTION (It is assumed you have banded and recovered animals to collect data.)

Additional data collected (tick relevant categories)

❒ Resightings of colour-marked animals ❒ Morphometric measurements ❒ Behaviour
❒ Weights ❒ Moult ❒ Blood/tissue samples
❒ Other (specify):_____ ❒ Plumage/Pelage descriptions ❒ Environmental data

5. BANDING AND RECOVERY TOTALS for species targeted, or caught most often. Complete list not required *****

ABBBS no	Species name	No banded 2010/11	No recovered 2010/11	Total banded	Total recovered	Duration (years)
_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____

6. DATA ANALYSIS (Indicate what calculations have been made. You may wish to attach examples or provide references to published analytical techniques to clarify your discussion) *

❒ Recovery rates
❒ Patterns of movement
❒ Patterns of behaviour
❒ Breeding success
❒ Population size
❒ Family relationships
❒ Home range/territory size
❒ Survival, life expectancy, recruitment
❒ Other (specify):_____

Give an indication of what level of statistical analysis you have applied to your data

❒ Not relevant to study
❒ Graphs, histograms, maps
❒ Basic statistics (means, variation)
❒ Comparative tests (X^2, t-tests)
❒ Complex analysis (ANOVA, etc)
❒ Other (specify):_____

7. DISCUSSION OF RESULTS. (Insights from recent activities, proposed changes to methods or objectives.

Please attach copies of any recently published papers relating to your banding project.)*

_____
_____
