

my ocean

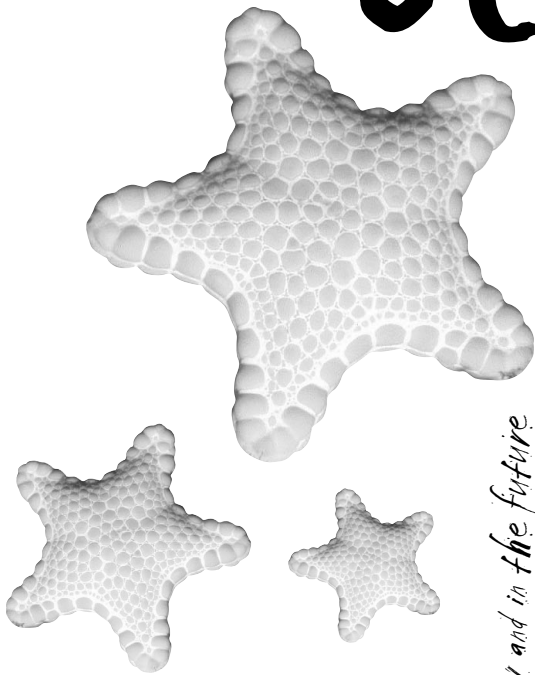

CHARTER

AS A YOUNG PERSON, I AM PART OF THE FUTURE OF THE WORLD AND ITS OCEANS

- I agree that the oceans and all their creatures are a necessary part of life on this planet.
- I will try to learn more about the marine environment and its living community.
- I will personally try to look after the marine environment and its living communities and will work with others to make sure that the oceans remain healthy.
- I will personally try to use the resources of the oceans (such as their fish, mammals, plants and minerals) as safely and wisely as possible and will work with others to make sure that ocean resources are used safely and wisely, now and in the future.
- I believe that all people should accept responsibility for using the oceans safely and wisely so that future generations can continue to enjoy the benefits of the ocean.
- I promise to remember my oceans charter in my treatment of the oceans and the waters that flow into the ocean.
