Melissa,

Thankyou for your recent letter
ref. MS 18-000467, providing the Farmer
with information on the review of the
[~~environmental~~ laws]. If you know anything
about farming and farmers you will already
know we have two objectives

- (1) Improve the land so as to leave it in
better condition than when we received it.
- and (2) Control invasive vegetation and vermin
which includes native animals.

The EPBC Act of 1999 has brought us to conflict
on many occasions. Also the fear of prosecution
when there is this conflict. We need a little
in the way of rights when it comes to
clearing land and meeting our objectives. We
need to be able to take action on Crown
Land surrounding us i.e. burn and control vermin
when it is necessary to do so.

Sorry I'm not able to Email this
