Re: Submission Section 8.7 Litter

Keep Australia Beautiful Victoria is a member of the federation of Keep Australia Beautiful organisations.

Our Submission relates to **Section 8.7 Litter of the National Waste Policy**

Keep Australia Beautiful Victoria believes that although steady, litter levels are at an unacceptable level and further action needs to be taken by the Federal Government to:

1. set targets for reduction and
2. fund a national education program that will create continuous improvement.

As such it is essential that the National Litter Index be maintained and that NGO's and organisations such as the National Packaging Covenant continue to focus on the problem of litter.

Yours sincerely

A handwritten signature in dark ink, appearing to read "G Seddon". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Gayle Seddon
