Dear Taskforce

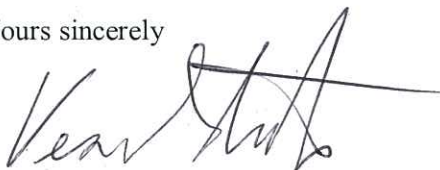

Thankyou for your ongoing consultation on the development of the *Draft National Waste Policy Framework*. MWMG appreciates the opportunity to meet with Kate Pasterfield in Melbourne on 24 July 2009 to discuss and provide a understanding of MWMG activities that align with the National Waste Policy.

MWMG has read the latest Discussion Paper and concurs with the general thrust of the paper. The aims and vision set an appropriate foundation for the Waste Policy. The 10 key principles outline the broad policy framework needed. The seven high level themes and directions are also supported and will provide a solid foundation for future detailed chapters and action plans as the Waste Policy develops.

MWMG appreciates the opportunity to review the framework for the policy and will look forward to further iterations of the Policy at a latter date where specific actions and targets will be developed.

I look forward to continuing to be involved in the development of the *Draft National Waste Policy Framework*.

Yours sincerely
